

Introducing Liz Jazwiec

Our speaker today is Liz Jazwiec (JAZZ-WICK). Liz was raised on the South Side of Chicago and used to get in trouble at school for talking. Today she lives just outside the windy city with her husband of 26 years, "Poor Frank" and Elvis, a crazy sheltie.

Liz earned her BS degree in Nursing at Northern Ill. University. She went to work the day after she graduated in the Emergency Department at Christ Hospital and at the young age of 22 was promoted to Head Nurse, and has never looked back. Her 25 years of experience in health care leadership has given her a view of life that has been much in demand all over the nation as a professional speaker.

Under her leadership as Vice President of Patient Care at Holy Cross Hospital in Chicago, Illinois, the hospital customer satisfaction scores rose from the 5th percentile to the 99th percentile earning Holy Cross Hospital Fortune Magazine's Enterprise Award for Best Business Practices in Customer Service.

Liz believes that in life, Fun is mandatory and her speaking style will verify that.

She has been asked here today to speak on "Attaining Accountability", so please help me welcome to the platform, Ms. Liz Jazwiec
